

SNOWMOBILING IN MICHIGAN

Rules and Regulations

The State of Michigan, including every available branch of law enforcement, thoroughly enforces all snowmobile laws. Fines are substantial.

A snowmobile is any motor driven vehicle designed primarily for travel on snow or ice utilizing sled type runners or skis, or an endless belt tread or similar means to contact the surface upon which it is operated.

REGISTRATION REQUIREMENTS

A snowmobile shall not be operated by a Michigan resident unless the owner first obtains a certificate of registration and a registration decal.

A snowmobile owned by a non-resident, before operation in Michigan, must display a valid registration from their home state or province, or be registered in Michigan.

The secretary of state registers snowmobiles for a three year period for a fee of \$15.00. The registration cycle begins on October 1 and expires on September 30 of the third year following registration.

Any time a registered snowmobile is sold to another person, the registration must also be transferred. The secretary of state must be contacted to transfer the registration of a snowmobile.

Contact the secretary of state to register your snowmobile.

SNOWMOBILE TRAIL PERMIT

In addition to registration of a snowmobile in Michigan or from another state or province, a person who desires to operate a snowmobile in this state shall purchase a snowmobile trail permit sticker. The snowmobile trail permit sticker shall be valid for a period of 1 year which begins October 1 and ends September 30 of the following year.

Snowmobile trail permits are available from snowmobile dealers and many retail businesses located adjacent to or near the Michigan snowmobile trail system. Permits are available from the secretary of state at the time of registration renewal.

Snowmobiles are exempt from Registration and the Trail Permit Sticker if they are:

- Operated exclusively on lands owned or under the control of the owner; used entirely in a safety education program conducted by a certified snowmobile safety instructor; or exclusively operated in a special event of limited duration which is conducted according to a prearranged schedule under a permit from the governmental unit having proper jurisdiction.

DISPLAY OF REGISTRATION DECAL

It is unlawful to operate a snowmobile without having a valid registration sticker permanently attached and visibly displayed on the forward half of the snowmobile.

DISPLAY OF TRAIL PERMIT STICKER

The trail permit sticker shall be permanently affixed to the forward half of the snowmobile.

OPERATING ON A ROADWAY

A snowmobile may be operated on the right-of way of a public highway (except a limited access highway) if it is operated at the extreme right of the open portion of the right-of-way and with the flow of traffic on the highway. Snowmobiles operated on a road right-of-way must travel in a single file and shall not be operated abreast except when overtaking or passing another snowmobile.

Rules and Regulations (Cont.)

A snowmobile may be operated on the roadway or shoulder when necessary to cross a bridge or culvert if the snowmobile is brought to a complete stop before entering onto the roadway or shoulder and the operator yields the right-of-way to an approaching vehicle on the highway.

A snowmobile may be operated across a public highway, other than a limited access highway, at right angles to the highway for the purpose of getting from one area to another when the operation can be done in safety and another vehicle is not crossing the highway at the same time in the immediate area. An operator must bring his snowmobile to a complete stop before proceeding across the public highway and must yield the right of-way to all oncoming traffic.

Snowmobiles may be operated on a highway in a county road system, which is not normally snowplowed for vehicular traffic; and on the right-of-way or shoulder when no right-of-way exists on a snowplowed highway in a county road system, outside the corporate limits of a city or village, which is designated and marked for snowmobile use by the county road commission having jurisdiction.

"SAFETY ONE"

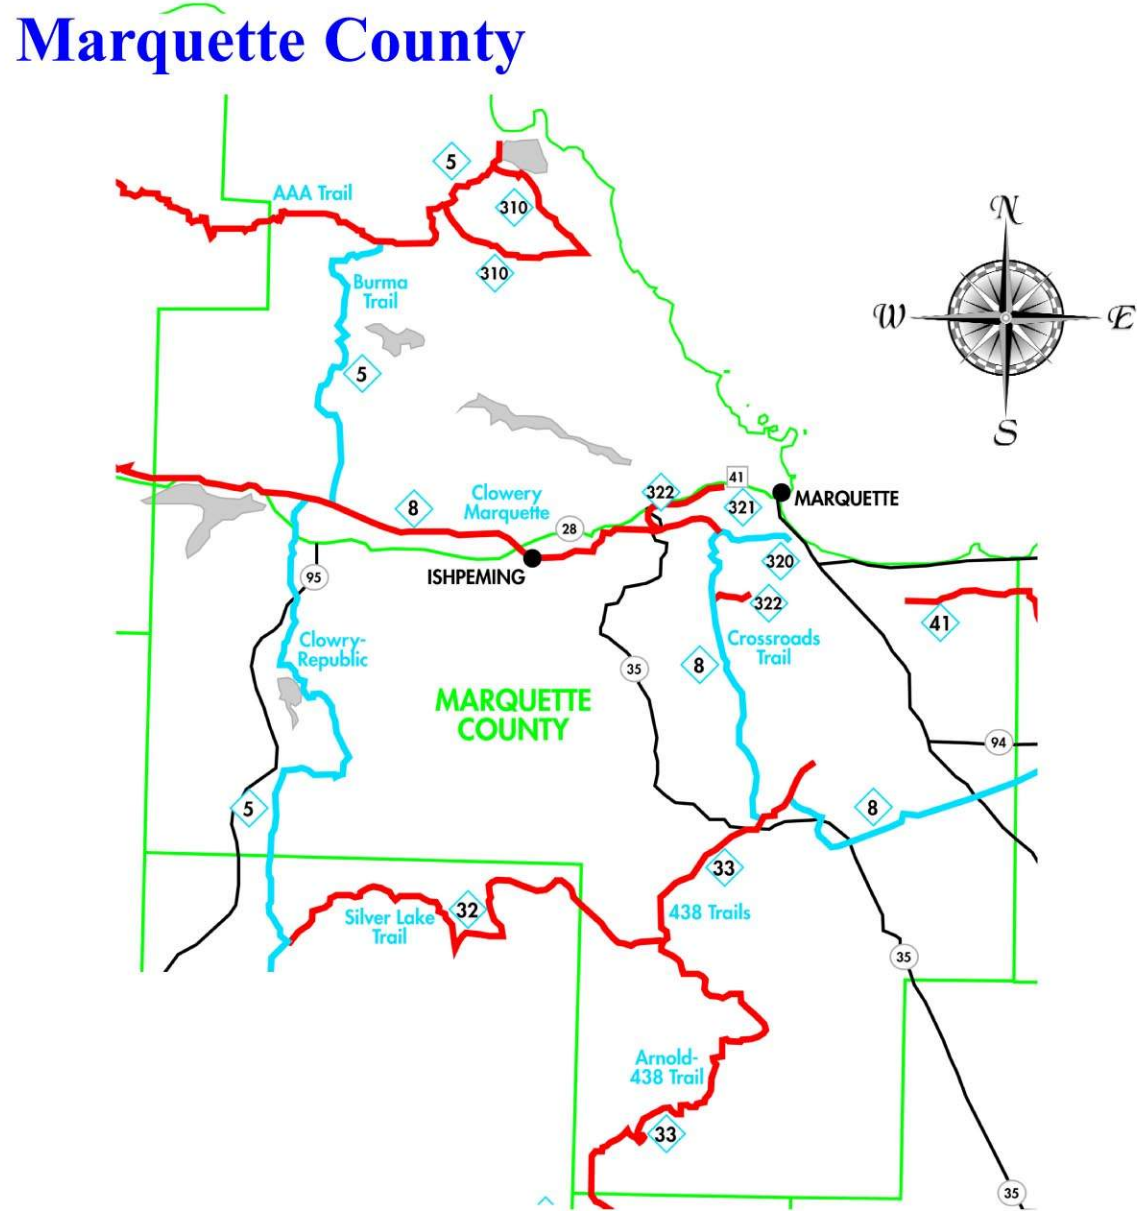

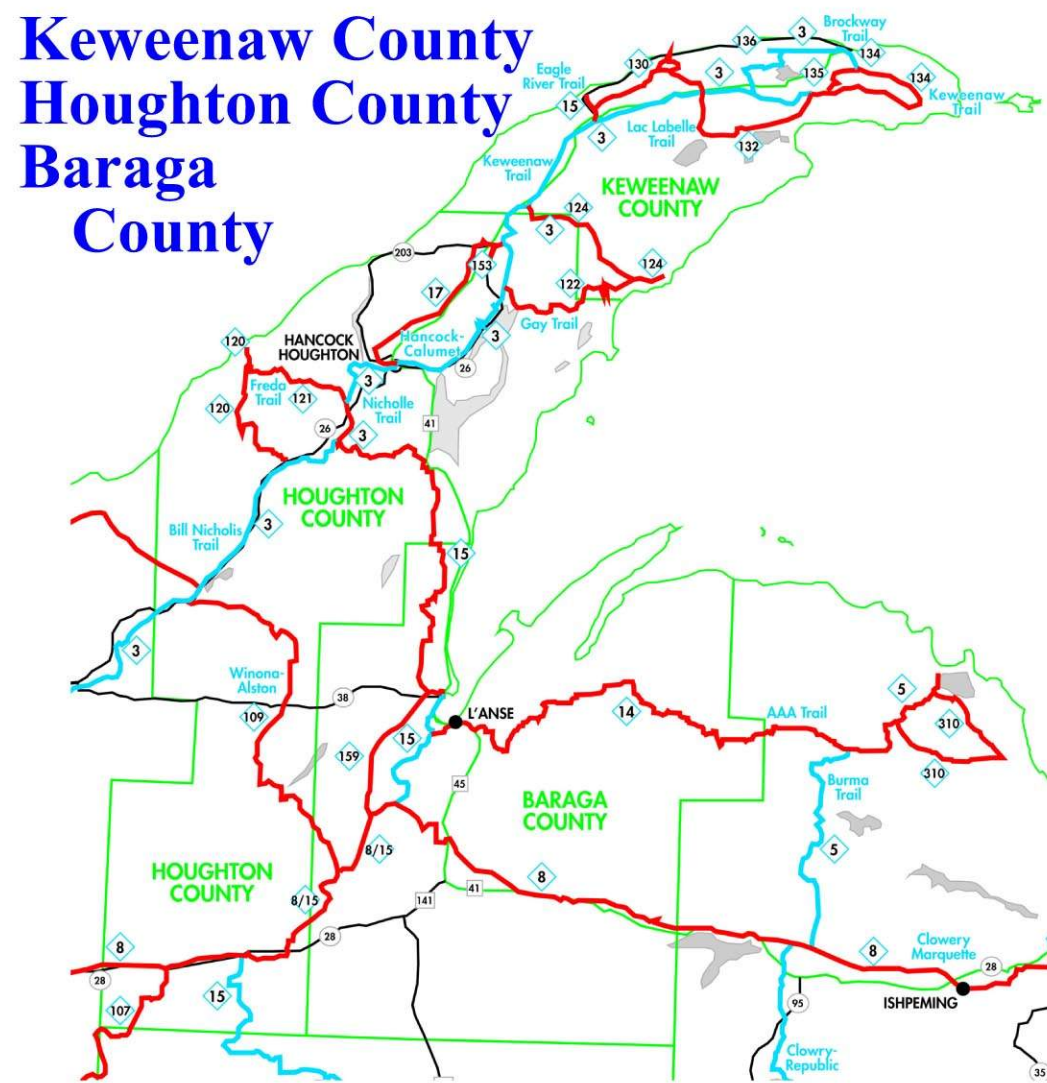

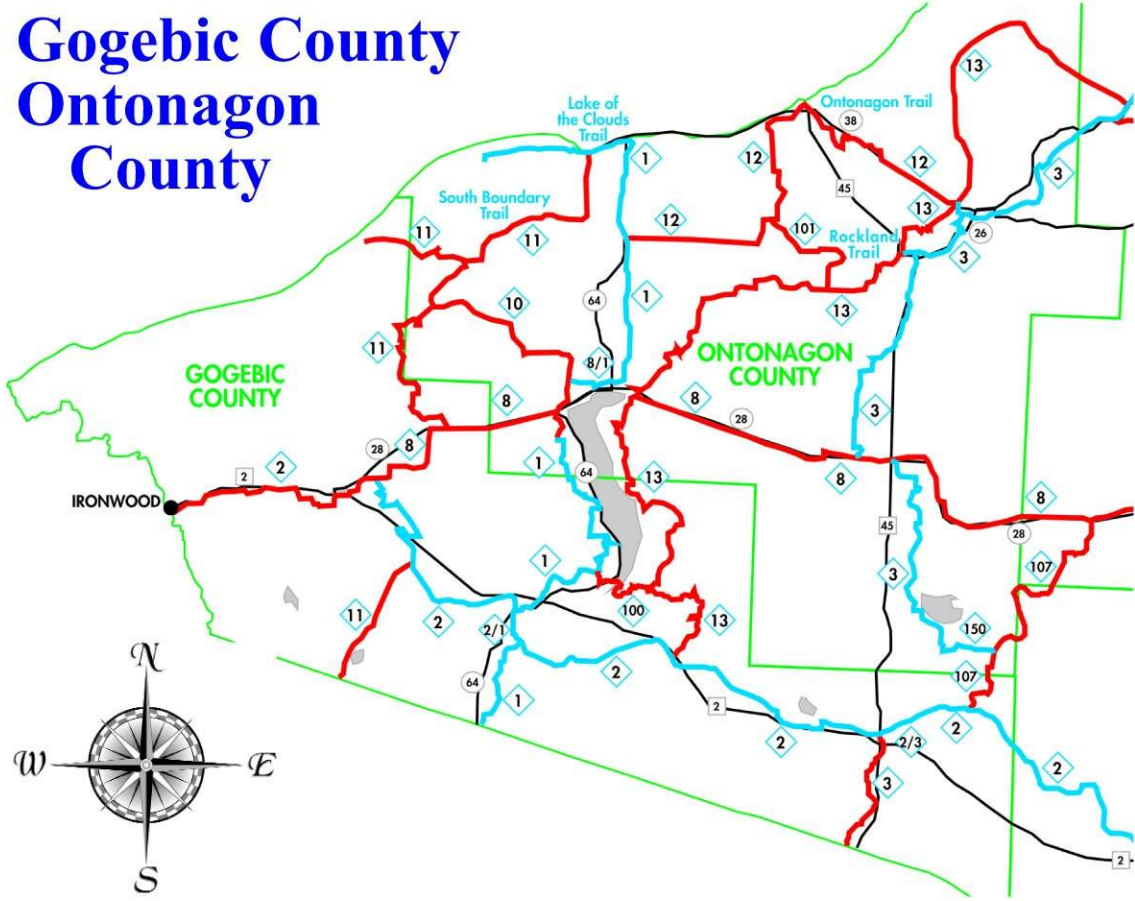

SAFE RIDING HINTS

- * Always keep your machine in top mechanical condition .
- * Always wear insulated boots and protective clothing including a helmet, gloves and eye protection.
- * Never ride alone.
- * Avoid, when possible, crossing frozen bodies of water.
- * Never operate in a single file when crossing frozen bodies of water.
- * Always be alert to avoid fences and low strung wires.
- * Never operate on a street or highway.
- * Always look for depressions in the snow.
- * Keep headlights and taillights on at all times.
- * When approaching an intersection, come to a complete stop, raise off the seat and look for traffic.
- * Always check the weather conditions before you depart.

RECOMMENDED EMERGENCY EQUIPMENT

- * Tool kit (knife, pliers, adjustable wrench, electrical tape, plug wrench, and screwdriver).
- * Flashlight (extra batteries and bulb).
- * Matches (candles).
- * Disposable blanket (heat reflecting "space" type).
- * First aid kit.
- * Snowshoes
- * Package of fire starters
